PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications and contributing to industry-level software projects. Experience working in cross-functional teams using React.js, Node.js, Express.js, and MongoDB while following Agile development practices, Git workflows, code reviews, and testing processes.

TECHNICAL SKILLS

Frontend	React.js, HTML5, CSS3, Bootstrap
Backend	Node.js, Express.js
Databases	MongoDB
Languages	JavaScript, C
Cloud & Tools	AWS, Git, GitHub, Postman, VS Code, Cloudinary, Agile Development
AI Tools	Antigravity, ChatGPT, Gemini, Copilot, Cursor, Codex
Soft Skills	Leadership, Teamwork, Quick Learner

PROJECTS

FleetDocs: Fleet & Driver Management SaaS Platform

- Addressed transport industry inefficiencies by replacing manual fleet record management with a centralized digital system.
- Developed FleetDocs to manage trucks, drivers, trips, expenses, reports, and document compliance in a single platform.
- Improved operational efficiency by providing real-time monitoring, automated alerts, and structured workflow management.
- Technologies Used:** React.js, Node.js, Express.js, MongoDB, AWS S3, Brevo (Email Service).

Educational Game for Groundwater Conservation | Smart India Hackathon 2024

- Addressed the critical need to spread public awareness about groundwater conservation via engaging educational resources.
- Developed a digital "Snakes and Ladders" game to teach essential water conservation concepts interactively.
- Implemented a dynamic quiz system where incorrect answers trigger snake penalties, preventing player progression.
- Led a 6-member team to secure the national-level winner position at Smart India Hackathon 2024 within 48 hours.

PROFESSIONAL EXPERIENCE

Junior Software Developer Intern

Jan 2026 – Present

Cravita Technologies India Private Limited

- Working on a real-time industry-level web application using React.js, Node.js, Express.js, and MongoDB.
- Collaborating with developers, testers, data analysts, data scientists, and cloud engineers in a cross-functional team.
- Following industry-standard Git and GitHub workflows, including pull requests, code reviews, and version control.
- Participating in feature development, testing, bug fixing, and delivering tasks within project deadlines.

CERTIFICATIONS

- MERN Stack Certification** | Fortune Cloud Technologies Private Limited, Pune
 - Developed hands-on expertise in building responsive full-stack applications using React.js, Node.js, and Express.js.
 - Mastered NoSQL database management by designing complex MongoDB data structures and integrating RESTful APIs.

EDUCATION

- B.Tech, Electronics & Telecommunication Engineering** (CGPA: 8.74)
Walchand Institute of Technology, Solapur Nov 2022 – Jun 2026
- Higher Secondary Certificate (HSC)** (Percentage: 73%)
Major Hemant Jakate Institute of Science and Commerce, Nagpur June 2022
- Secondary School Certificate (SSC)** (Percentage: 72.6%)
Sanskar Vidya Sagar, Nagpur June 2020

ACHIEVEMENTS

- Winner**, Smart India Hackathon 2024 (SIH)
- Participant**, Aavishkar 2024 (University Level Research Competition)
